HOUSTON, TX--(Marketwire - 12/14/09) - Bederra Corporation (Pinksheets:[BEDA - News](#)), a Houston, Texas-based diversified medical services provider, has announced its third quarter results. For the quarter ending September 30, 2009, the company had gross revenues of \$860,158.00 with an operating loss of \$49,980.00. The full statements are posted on [pinksheets.com](#).

Although the company recently announced a strategic reorganization including a redirection into mobile diagnostics, management remains confident that the addition of mobile diagnostic services, (under the acquisition of Texas Mobile Health, Inc.), will produce a profitable year in 2010. The acquisition is expected to close this month and in the meantime the company will provide certain billing services for Texas Mobile Health. Additionally, the company is still considering the re-establishment of its Lumar Imaging center at another cost-effective location. The company had previously closed its facility at the Texas Medical Center in advance of announced Medicare payment cuts in conjunction with a conflict with the company's lease at the facility. The move also reduced the company's overhead costs by approximately \$360,000.00 as the company refocuses its attention on the provision of mobile diagnostic services.

Management is continuing to evaluate other acquisitions and will provide periodic updates on its progress.
